Response to Amendment

The following is in response to the amendment filed on August 12, 2004.

Allowable Subject Matter

Claims 5-10 and 12 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims are allowed because the prior art does not disclose or suggest a method of making an optical fiber drawn from a preform and then coated with a resin comprising at least the combination of steps of drawing the fiber in a drawing furnace with a first gas of first thermal conductivity and then heating/annealing the drawn fiber in a heating furnace with a second gas of second conductivity lower than the first conductivity, and whereby the first gas is discharged at an exit between the two furnaces and the second gas is also discharged so that the two discharged gases are not mixed in the drawing furnace. Allowability of claim 5 was indicated in the previous office action.

Response to Arguments

Applicant's arguments filed on August 12, 2004 have been fully considered and are persuasive with respect to the rejections set forth previously based on prior art references Ohga et al (US 5,320,658). Bailey et al (US 4,396,409).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
